PROFILE

Web developer with practical React and TypeScript project experience and Full Stack Developer training at CodeFactory Vienna. Builds applications informed by a background in technical support, customer service and production work. Open to frontend and web development opportunities in Vienna.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, HTML, CSS, Mantine

Data & tools: Supabase, PostgreSQL, SQL, Git, GitHub, Vite

Foundational knowledge: PHP, Symfony, MySQL, Node.js, Angular

FEATURED PROJECT

ShiftPlanner | Staff scheduling web application

React · TypeScript · Supabase · PostgreSQL · GitHub Actions

Staff-planning MVP for a workplace use case, with a separate public demo using fictional workers, stations and weekly schedules.

- Weekly planning with drag-and-drop assignments, worker availability, time-off handling and role-based access.
- Database access policies and validation to prevent double-booking and assignments on unavailable dates.
- Automated planner tests, deployment through GitHub Actions and a public demo with registration and bounded sample data.
